

## High-precision flat-rolled wires

**Materials** Rust-resistant steels, carbon steels, copper, bronze, brass, nickel silver, aluminium, special alloys

### Dimensions

Ratio width / thickness max. 60:1

|                   |       |   |
|-------------------|-------|---|
| <b>Tolerances</b> | Grade | soft to hard<br>strength according to specification |
|                   | Edges | - mill edges<br>- rounded edges<br>- rolled edges   |

**Supplied** on reels 10 g - 500 kg

### Our products are used for

- aircraft
- electrical and electronic industry
- information technology/ (IT) communication
- automotive industry
- textile industry
- measuring equipment
- medical engineering
- clock and watch industry
- swiss pocketknives
- fretsaw/jigsaw/scroll saw blades
- compression springs
- tension springs
- leaf springs
- stampings
- shaped parts
- seals
